

PORTLAND SANITARY SEWER CONNECTION/REPAIR PERMIT

2/14/08

Property owners or their authorized representative must complete this Sanitary Sewer Connection/Repair Permit for all work done on any new or existing building sanitary sewer line starting outside the building foundation to the City sewer main. **Part A** of this Permit must be reviewed by the City (call: 647-647-6926) prior to starting any work. Please return this completed permit to the City after the final City inspection. **NOTE: ALL WORK MUST BE INSPECTED BY THE CITY PRIOR TO BURYING THE LINE.** Failure to do so will result in owner digging up the line to expose the pipe for inspection. Attached are the installation specifications. This Permit does not relieve the applicant from meeting any applicable requirement of the City, State or Federal agencies. Call the Portland WWTP at 647-6926 or send an email to wwtp@portland-michigan.org if you have any questions.

PART A

Owner's Name: _____ Address: _____
Phone #: _____ Job Site Address: _____
Reason for work: _____ (use back of sheet if needed)
Work to be done: _____
Date Work Starts: _____ Date Work Completed: _____ Connection Fees: _____
Name and phone # of Contractor: _____
Size of Sewer Line Installed: _____ Type of Pipe: _____
Signature of Owner: _____
Signature of Inspector: _____ Date Inspected: _____

PART B

Draw a sketch showing the building and the sewer line from the building to the sewer main or point of attachment. Include distances in feet so as to be able to locate sewer pipe after buried.
